1913.

N
352.07
N253
1912

ADDRESS DELIVERED BY

HIS HONOR MAYOR BARRY,

At the Joint Convention of the City Councils, Jan. 1, 1913.

GENTLEMEN OF THE CITY COUNCILS:

Today is set aside by law for the opening of a new administration and in obedience thereto we are now met to fulfill this obligation and to enter upon the duties of our respective offices. For the most part, we are a new body, unbound by past affiliations, and unfettered by tradition of former endeavor. And while we are to mark out our own pathway, we should be guided by the experiences of the past that we may not fall into undeserved error or fault. The labor to be performed assumes an aspect general in its character, and in its performance personal ambition and individual favor must be disregarded. Our duty is to all, not a few, based upon the welfare of the city and her citizens. Let us then approach it in the broad spirit of citizenship, determined to act with honesty and fairness for the benefit of those whose interests as public officials we have sworn to protect.

Financial Statement.

LIABILITIES.

Bonded Debt.....	\$893,508.91
Time Notes.....	72,253.49
Demand Notes.....	72,395.10
Total liabilities.....	\$1,044,157.50

RESOURCES

Uncollected taxes, 1909.....	\$8,924.04	
Uncollected taxes, 1910.....	8,891.43	
Uncollected taxes, 1911.....	11,390.55	
Uncollected taxes, 1912.....	63,782.62	
Sinking Fund.....	406,024.11	
Taxes Purchased.....	2,390.79	
Cash on hand	11,289.35	
Total Resources,		\$512,692.89
Total Liabilities.....	\$1,044,157.50	
Total Resources.....	512,692.89	
Net Debt,		\$531,464.61
Net Debt, December 31, 1911....	\$554,343.29	
Net Debt, December 31, 1912....	531,464.61	
Net Decrease in Debt,		\$22,878.68

In explanation of this statement it must be remembered that the gross liabilities have been increased by the issuance of a note for \$9,753.49, the amount needed to settle the contract price for the building of Taylor's Falls Bridge. The real decrease then for the year 1912 amounts to \$32,632.17.

Net Debt, December 31, 1910....	\$603,871.49
Net Debt, December 31, 1912....	531,464.61

Net Decrease, 1911—1912,	\$72,406.88
--------------------------	-------------

To this amount should be added the bridge note of \$9,753.49, making a total actual reduction by the last administration in two years of \$82,160.37.

Let us continue the policy of the last administration by paying as we go that the completion of the next two years will find a like good result.

STREETS LIGHTS

The problem of sufficient street lighting seems to be reasonably well met by the present distribution of arc and incandescent lights. In extending the system, the demand for additional lamps should be governed by necessity and economy.

The subject of more brilliant lighting on Main Street has been often urged, and I recommend that careful consideration be given this question with view to its adoption if finances permit.

The consideration of proposals for lighting the city's streets has been referred to this administration. In arriving at a basis upon which a contract shall be drawn, we must look upon conditions as if they were our own private affairs, treating the taxpayers fairly and honestly, equally and impartially. The city cannot be considered other than as a purchaser in class with individual consumers, and it should bear no greater proportional burden than they. Let us consider this important matter with open minds governed only by the best interests of all we represent, with a view to obtaining the best results that careful business efforts can accomplish.

FIRE DEPARTMENT

The freedom from serious loss which the city has for years enjoyed, is the best recommendation that this department can receive. In its labor of protecting life and property it has markedly served the welfare of our citizens, and its carefully drilled corps of men compare most favorably with those of neighboring cities. I recommend the further extension of the fire limits, and such additional ordinances as will strengthen the department's powers in new construction throughout the city, and in the creation of conditions unsafe to life and property.

In considering this department, the practice of insuring city buildings against loss by fire seems most unnecessary. The presence of trained men in the fire houses at all times, day and night, makes insurance on this class of structures most absurd. The brick construction of other public buildings, their proximity to fire stations and water mains, and their wide distribution throughout the city make the possibility of a large loss very remote. The low percentage of fire loss and the small burden that the erection of any building destroyed would place upon the individual taxpayer, are capital reasons why the city should become its own insurer. I recommend that no renewal be made upon the expiration of policies now in force, except upon particular wooden buildings and on steam boilers.

This policy bears the approval of the State administration as shown by its adoption by the legislature of 1909.

I renew my recommendation of one year ago for the installation of the ambulance at the Central fire station. When the public good is in question, it should not be subordinated to the ungratified wish of a department or the personal desires of any official.

TAXATION

The untiring labor of the assessors the past year has borne fruit in the large increase in the city's valuation. The increasing expenditures which the city's growth naturally demands must be met by an increase in tax rate unless the general resources upon which it is based are enlarged. The general equitable basis for the increase meets the approval of all citizens who welcome a just distribution of the city's burdens.

In connection with the collection of taxes levied, each taxpayer should be prompt in payment, as the failure to pay within the time allotted means the hiring of money at high rates of interest to care for the current expense. I call your attention to the necessity of a law for uniform poll tax that this species of tax

may be collected early in the year and urge a recommendation to the legislative delegation with this end in view. I also urge you to consider the feasibility of an enactment by which money may be obtained from taxpayers at an early date through a system of discounts.

PARKS

Such additional attention as our resources permit should be given to our parks and commons. These public utilities, existing for the health and comfort of our citizens, should be developed with a view to beauty and convenience. I recommend for your consideration an appropriation for playgrounds now made legal by legislative enactment.

PUBLIC HEALTH

The cooperation of all citizens is needed in protecting the health of the community. A little care on the part of business houses and householders in cleanliness of yards and supervision of refuse will be of inestimable value to a board whose duties are irksome and unsavory. A slight effort will make the city neater and prevent what may by neglect lead to serious results.

SCHOOLS

To this element of public duty, too much attention cannot be given. Our schools, as conducted, rank high in the educational world, and while zealous in our protection of the public moneys we must take care not to allow penury to lower the standard so well established.

The manual training and sewing departments are fulfilling all the promises made for them. The experiment of conducting night school has, so far, proven to be a good one, and its continuance will be of the utmost value to those whom conditions otherwise deprive of an opportunity for education.

PUBLIC WORKS

This department, handicapped by an insufficient appropriation, has well cared for our highways, and should be encouraged by such additional appropriations as the city can permit.

The steady growth in the southwestern part of the city makes the construction of a comprehensive, modern system of sewage imperative. The section south of Lake street is improperly drained and many portions of this area are now dependant on private cisterns, an unhealthful and archaic method of treating the sewage question.

The opening of Eaton street, now in like manner, makes possible the construction of a sewerage system in the western part of Ledge street. This thickly populated section is absolutely without drainage, and the continued demand of the health, authorities for relief must be complied with. Both these proposals are in the nature of permanent improvements, which after construction, with little cost for maintenance will endure for years of city life. In such event the expense should be proportioned that the next generation may share the burden of benefits they will enjoy.

I recommend the immediate extension of the trunk sewer west of Lake Street to Pine, the establishment of connecting sewers in the district south of Lake street and the construction of a sewerage system in the Ledge street Section, all to be paid for by floating of a bond issue.

The question of properly caring for city waste has assumed a serious aspect. The obtaining of a location within easy reach has become impossible, owing to smouldering fires which are unhealthful and leave the department open to private censure and public rebuke. The expense is steadily increasing, and must continue if present conditions exist. As an expedient, I recommend the city farm as a depository for city waste, and the purchase of an auto truck for collection.

Within the appropriations made for this department little or no attention can be paid to new construction work on highways. The additional burdens which modern methods of travel impose upon the highways cannot be met unless further means are obtained. The department's resources are not barely sufficient to keep the highways passable as they now are. It cannot be denied that our streets in various localities must be renewed and for this purpose additional resources are needed. I believe the city should enter upon a definite plan to build each year a goodly sized strip of new roadway, and to that end recommend the additional annual appropriation of \$20,000 for, at least, five years, to be used in new construction work on highways.

I again invoke the public spirit of the owners of property that our sidewalks may be in better condition for the walking public.

Your attention is directed to the powers granted by the legislature for the exploiting of advantages of our city. Men may differ as to advisability of appropriating public money for what may appear to be private gain. The welfare of the city, however is wrapped up in such project, and I recommend your earnest consideration of the plan looking toward its completion, if finances permit.

Many of the recommendations and suggestions herein offered demand increased expenditures. Consider them with care and deliberation, though economy and expediency demand their postponement

In the performance of our duty as prescribed by law we will be met with obstacles and perhaps subjected to unjust criticisms. Private interests may enter to deter us. Difference of opinion may arise, and opposition must naturally attend, but honest, open discussion cannot fail to settle all difficulties to the best advantage of the citizens to whom we are responsible. Let us then resolve to conduct city affairs as our consciences dictate and our obligations to the citizens require.

May our administration be honest and harmonious, fruitful of good results, and creditable to our city and ourselves.

City Government of the City of Nashua, N. H.

For the Years 1911-1912.

Board of Mayor and Aldermen.

MAYOR AND CHAIRMAN OF THE BOARD,

Hon. WILLIAM H. BARRY,

Residence, 104 Palm Street.

C. B. Watkins, Spare Driver.
G. S. Hidden, Spare Driver.
R. E. Hallisey, Driver, Chief's Team.
F. Laforme, Spare Driver.

Fire Alarm Telegraph.

This branch of the service is now in perfect condition excepting the placing of wires in ducts located by N. E. T. & T. Company, in place of overhead wires.

Instructions to Key Holders and Citizens.

1. Upon the discovery of a fire, go to the nearest box, break glass in key box, place key in lock, turn, and hold back with key as it is a spring lock, pull down the hook as far as it will go; shut the door. Do not try to remove key, as it is locked in, and can be removed only by the engineers.

2. All persons giving alarms should remain awhile beside the box so as to direct the firemen to the fire.

3. No person will give an alarm for the same fire after the first alarm has been given without an order from an engineer or the officer in command, and the person so ordered will be sure to go to the same box from which the first alarm was given and report to the chief engineer.

4. Never signal for a fire seen at a distance; never touch a box except to give an alarm of fire; do not give an alarm for a chimney or grass fire, but notify central or nearest fire station by telephone.

Apparatus and Hose.

The apparatus consists of four Amoskeag Steam Fire Engines, one horse-reel, four two-horse hose wagons, four supply wagons, one hook and ladder truck, one combination hook and ladder truck, one babcock chemical engine.

We have at present, about 10,000 feet of fabric hose in good condition.

Estimated value of Property.

Steamer No. 1.....	\$3,000.00
Steamer No. 2.....	3,000.00
Steamer No. 3.....	3,000.00
Steamer No. 4.....	4,250.00
Combination Chemical, Hook and Ladder No. 2.....	2,100.00
Hook and Ladder No. 1	1,900.00
Chemical No. 1	1,800.00
Hose Wagon Engine No. 1.....	400.00
Hose Wagon, Engine No. 2.....	425.00
Hose Wagon, Engine No. 3.....	400.00
Hose Wagon, Engine No. 4.....	425.00
Supply Wagons, (4).....	650.00
Line Wagons.....	145.00
Hose.....	7,200.00
Horses, (29) and blankets.....	5,300.00
Harness.....	2,200.00
Tools.....	200.00
Chief's Wagon.....	150.00
Furniture, etc.....	1,240.00
Badges.....	100.00
Central Station.....	34,000.00
Arlington Street Station.....	6,000.00

Lake Street Station	\$10,000.00
Amherst Street Station	41,000.00
Fire Alarm Telegraph	13,900.00
	\$142,785.00

We would recommend the following: An up-to-date Aerial Ladder Truck, estimated cost \$5,000.00; also cable to be placed in ducts laid by New England Telephone and Telegraph Company, in place of overhead wires, at an estimated cost of \$350.00. 1-Motor driven Combination Chemical and Hose Apparatus, estimated cost \$6,000.00; purchase 500 feet of hose, estimated cost \$375.00; and an appropriation of \$41,885.03 for running expenses of the Fire Department for year 1913.

Respectfully submitted,

JAMES H. CONNOR,
ARTHUR G. SHATTUCK,
JAMES SCANLON.
Board of Fire Commissioners.

[illegible]

Some Items of Expenditures.

Bridges and Culverts: \$9,940.13

This item includes the construction and maintenance such as painting and resurfacing with plank and tar concrete, of all the highway bridges and culverts within the City limits and the Suburban Districts. \$9,753.49 of the above amount was expended on the Taylor's Falls Bridge.

Catch Basins: 2,134.70

General cleaning, repairing and cost of material and construction of new ones. Twenty-one new basins were constructed during the year and are distributed as follows: Berkeley St. 1, Broad St. 2, Bridge St. 1, East Hollis St. 1, Tyler St. 1, Ash St. 1, Eaton St. 2, Gilman St. 2, Pine St. 2, Kinsley St. 1, Allds St. 1, Harbor Avenue 1, West Hollis St., 1, Main St., 1, Crown St., 1, Summer St. 1, and Elliott St. 1.

Crossings: 175.64

Cost of constructing and maintaining tar and flagstone crosswalks for the year.

General repairs and maintenance: 23,699.97

The cost of repairing and keeping all the streets in good, safe and passable condition necessitates a large expenditure. This also includes the dust laying oil and being a general account is naturally one of the largest. Some of the streets upon which

large expenditures were made and charged to General Repairs and Maintenance are as follows:

Ash	\$177.78
Concord	772.52
Crown	581.44
Eaton	2,413.51
Kinsley	1,731.54
Lake	94.64
Lowell Road	2,977.11
Main	1,461.51
Manchester	144.04
Suburban Roads	3,563.39

Paving Gutters	203.69
----------------	--------

Not much new work was done this year, but many of the old gutters were relaid.

Removing Snow and Sanding Streets:	2,583.47
------------------------------------	----------

This includes plowing snow from the sidewalks, sanding them when slippery, also breaking out suburban roads and to some extent the removal of snow and ice from the City streets. Compared with former years the expenditure is small.

Paving:	408.43
---------	--------

Most of the expenditures for paving were charged to General Repairs and Maintenance this year. The most important job being Kinsley St., which was paved from Walnut to Pine St., both sides, also Crown St.

Edgestone

\$1,393.66

This item includes cost of new stone, setting same and cost of resetting old stone. New stone has been set as follows:

APPLICANT	STREET	No. FEET.
E. H. Wason	Lake and Pine Sts.	51.20
Matthew Creamer	Spring and Eldredge Sts.	152.95
B. I. and Margaret Degnan	Allds and McKean Sts.	104.70
Herminie Jeanotte	131 Ash St.	55.25
Millie A. Davis	9 Lincoln Ave.	56.75
Joseph Salvail	16 Ridge St.	44.55
Mary E. Tolles	Green and Franklin Sts.	150.50
Nashua Trust Co.	6-S Fulton St.	49.20
Ida B. Seifert	Arlington St.	58.05
L. F. Spaulding	Abbott St.	58.70
Henri A. Tessier	Kinsley St.	54.90
Celina Beston	129 Ash St.	55.25
Fred P. Hoitt	Belknap St.	54.10
Victor St. Onge	131 Palm St.	50.70
Frank X. Tardiff	Tolles St.	62.30
William Powell	Monadnock St.	49.15
L. J. Dubray	366 Main St.	61.70
William Nutting	Columbia Ave. and Webster St.	28.30
Trustees Edgewood Cemetery	Amherst St.	85.83
Mary Buckley	55 Bridge St.	18.40
Giles Daudelin	Kinsley St.	53.65
	Vine St.	12.33
	West Pearl St.	7.00
	Berkeley St.	19.00
	Merrimack St.	6.50
	Crown St.	362.67
	Main St.	28.78
	Middle St.	9.50

'City Waste

\$6,405.85

This includes the cost of collection and disposal of waste material, which is increasing in quantity every year. Suitable dumping places within reasonable distance from the centre of the city are becoming more difficult to obtain. More modern methods for the collection of same are being considered and the advisability of getting an auto truck contemplated.

Trimming and Care of Trees: \$335.19

This includes cutting and removing dead limbs and trees in the City streets.

Street Cleaning: \$8,951.70

Street cleaning is one of the large and important items and includes all labor and material necessary to keep the paved and unpaved streets throughout the city in a clean and sanitary condition.

Repair Tools: \$242.47

All repairs to tools and machinery except the City teams, which are included in a separate item.

Tools and Supplies \$2,230.28

The cost of all new tools, machinery and supplies not otherwise accounted for during the year.

Inventory, January 27, 1913.

The work of abating the dust has been for a number of years undertaken by private parties who secured subscriptions from individuals and the different departments of the city. Water was the material used and during hot dry weather it was impossible with the facilities available to keep the dust down. Two years ago the Board undertook to oil the principal thoroughfares in the city as an experiment, with good results. During the past year the work has been carried on a much larger scale with equally satisfactory results at a cost of \$2856.00. The total number of square yards covered with dust laying oil was 270,973 a cost of .01054 cent per square yard for several treatments during the season. The cost per square yard for one application was .00533 cent.

Respectfully submitted,

The Board of Public Works,

WILLIAM H. BARRY, Mayor.
ERWIN O. HATHAWAY.
JOHN HAGERTY,
FRANK T. LEWIS,
JOS. ROUSSEAU,

JOHN F. SHEA,

Auditor.

Nashua, N. H. Jan 16, 1913.

Librarian's Report.

To the Trustees of the Nashua Public Library:

GENTLEMEN: The report of the librarian for the year ending December 31, 1912 is presented for your consideration.

The home use of books was somewhat larger than that of last year, an increase of 3640, the number given out having been 81942, of these 19947 were in the Children's Room.

The use of the Library for study and reference has increased, particularly by students from the public schools. Much material has been furnished the debating clubs.

Books are largely selected from the shelves near the delivery desk by the general reader, as the newest fiction, which is most in demand, is found there. The newer books in other divisions are also on open shelves. This seems as satisfactory an arrangement as the open shelf system, free access being given to those desiring to consult books in any department, except that of fiction.

The International Library of Technology purchased at the close of last year has been much used and appreciated.

In scientific works and those in the useful arts, an effort has been made to keep up with the advance in these departments, this seeming the most important part of the Library. When there is a request for a book of this kind, not already in the Library, the desired work is supplied as soon as possible.

Through the interloan library system a few books have been borrowed from the Boston Public Library, and we also loaned to several libraries in adjoining towns.

There have been 1267 books and pamphlets catalogued this year, of these 205 were given. Worn and soiled books to the number of 144 have been withdrawn, all have not been replaced, as newer or better books have seemed more desirable.

The list of periodicals regularly received was 98; 23 being given.

It has been necessary to have 511 books rebound, and 70 periodicals have been bound.

The new borrowers added during the year have been 643; in the main room 384, and 250 in the children's.

The publishing of the Quarterly Bulletins has been continued. An effort to bring to the public a knowledge of the books in the

Library is made by lists in the Library and through the press, as well as the type written cards of the card catalogue.

It is to be regretted that there is not a greater use made of the Library, for many might find much that was helpful in their studies or daily avocation .

Sometimes surprise is expressed that the book asked for is to be found in the Library. The request for it being prefaced by "I suppose you haven't it."

The Library and Reading Rooms have been closed as usual on holidays and the Tuesday and Thursday evenings of July and August, also the Reading Rooms the Sundays of these months. During the painting and renovating of the Library it was necessary to close the Library while the delivery room and desk were being stained, as the giving out of books was impossible. When work was proceeding in other parts of the building, except in rooms where painting was being done, the usual routine was continued, although amid great confusion.

It is unfortunate that the file of the Nashua Telegraph cannot be made complete, as frequently one of the missing volumes is wanted for reference

Respectfully submitted,

HARRIET CROMBIE,

Librarian.

REPORT OF MILK INSPECTOR.

NASHUA, N. H., MAY 6, 1913.

TO THE BOARD OF HEALTH OF THE CITY OF NASHUA:—

GENTLEMEN:— I submit below my report as Milk Inspector of the City of Nashua for the year ending Dec. 31, 1912.

Licenses.

The total amount of licenses issued during the year was (90) \$180 being received from this source. The sum has been turned over to the City Treasurer.

Examinations.

During the year samples of milk and cream were collected and examined by me from time to time in order to find out if the milk was up to the required standard, or if any adulterations were present. In no case did I find evidence of adulterations. Each sample was examined for the fat content and total solids present.

Respectfully submitted,

GEORGE F. SPILLANE,

Milk Inspector.

REPORT OF CITY SOLICITOR,

NASHUA, N. H., JANUARY 20, '13.

To His Honor the Mayor and the City Councils of Nashua:

GENTLEMEN: I submit the following report of cases in which the city of Nashua is now interested and which are now pending in court.

Gallagher v Nashua. An action to recover damages for polluting water in a well on plaintiff's land.

Wright v Nashua. An action to recover damages for polluting water in a well on plaintiff's land.

Nashua Concrete Co. v Nashua. An action to recover damages for taking gravel from plaintiff's land on Chestnut Street.

Dodge v Nashua. Petition for the award of damages caused to plaintiff's land by the change of grade on the Concord road.

Nashua v Londonderry, Windham, Hudson, Litchfield and Pelham. A petition for contribution for the construction of the new Taylor's Falls Bridge.

Nashua v Nashua Street Railway, and Boston & Northern Street Railway Co. Same as above.

Hudson v Londonderry, Windham, Litchfield, Pelham and Nashua. Same as above.

Boston & Maine R. R. v Barry et Als. (The Board of Mayor and Aldermen.) A petition to prevent the laying out of Nagle Street and the establishing of a grade crossing.

Boston & Maine R. R. v Barry et Als. (The Board of Mayor and Aldermen.) A petition to prevent the laying out of Seventh Street and the establishing of a grade crossing.

The two latter cases are petitions brought against the outgoing administration and will no doubt be disposed of as a matter of course in the near future.

The case of Nashua against the Worcester R. R. & Boston & Maine R. R. involving the opening of Eaton Street is still on the Docket awaiting a formal degree to formally dispose of the case, which will also be attended to soon.

I understand one new petition has been filed by the W. H. McElwain Co. asking for abatement of taxes and has been entered at this January term of our Superior Court. This latter case is the only new one that has arisen in the year 1913; all other legal matters requiring my attention have received due consideration and I filled all other duties incumbent on me as City Solicitor during the year 1913.

Respectfully submitted,

H. A. BURQUE,

City Solicitor.

ANNUAL REPORT

OF THE

TRUSTEES OF WOODLAWN CEMETERY.

TO HIS HONOR, THE MAYOR, AND THE CITY COUNCILS OF
THE CITY OF NASHUA, N. H.

GENTLEMEN: The Trustees of Woodlawn Cemetery respectfully submit the following as their Annual Report for the year of 1912.

IMPROVEMENTS.

285 feet of 8" Sewer has been laid. 630 feet of Brick Gutter 18" wide has been put down. (6) Perpetual care lots have been regraded. (21) Perpetual care lots repaired and Monuments and Curbing cleansed and reset where needed. And (56) Headstones have been reset.

3500 brown tail moth nests were removed, also a thorough examination of trees and fences for Gipsy moth nests was made.

The total number of interments during the year was 130. as follows: Resident Adults, 55; Resident Children, 26; Out of town Adults, 47. Out of town Children, 2.

Removals in this Cemetery, 6; removals out of the Cemetery, 2. Bodies placed in the tomb, 6.

Total		\$12,280.50

Respectfully submitted,

For the Board of Trustees,

EUGENE P. JOHNSON,

Secretary.

February 8, 1913.

ANNUAL REPORT

OF THE

TRUSTEES OF SUBURBAN CEMETERIES.

TO HIS HONOR, THE MAYOR, AND THE CITY COUNCILS:

GENTLEMEN: The Trustees of Suburban Cemeteries respectfully submit the following report for the year 1912.

Condition of the Cemeteries.

The usual attention to the care of the several yards, has been faithfully preformed by our Superintendent. Among permanent improvements during the past year, are an extension of water main, paving gutters and a basement added to tool house, all at Evergreen Cemetery.

Interments.

Interments during the year were: three in the Evergreen Cemetery, two in the Hillside and one in the Old South Cemetery.

Finances.

Cash in hands of Treasurer, January 1, 1912.....	\$30.30	
City Appropriation.....	650.00	
Cash collections from cemeteries....	123.00	
		\$803.30
 Bills approved and paid.....	 \$702.28	
Cash in hands of Treasurer January 1, 1913	101.02	
		803.30

Perpetual Care Fund.

City Bonds.....	\$800.00
City Notes.....	200.00
City Guaranty Savings Bank.....	369.76
Citizens Institution for Savings.....	630.40

Memorial.

In the death of our associate James G. Coombs, the Board desires to express its sorrow for the loss of an efficient and genial member, and extend our sympathy to his bereaved family.

Respectfully submitted,

ARTHUR H. COTTON,

Secretary.

ANNUAL REPORT

OF THE

TRUSTEES OF EDGEWOOD CEMETERY.

TO THE HONORABLE MAYOR AND THE CITY COUNCILS:

The Trustees of Edgewood Cemetery present the 20th annual report of said Cemetery, for the year 1912, as follows:

Proper care has been given to the lots, walks and drives in our Cemetery, and in the unimproved sections we have done some careful trimming, thinning and clearing, the work adding to the beauty of the grounds and being preparatory to further improvements when this becomes desirable. Our work for the season was largely in continuation of work already begun, and little new work has been undertaken.

Through the generosity and public spirit of Mr. Ira F. Harris, who is one of the original members of this Board, which was organized in 1893, the Cemetery has now a beautiful and substantial main gateway at the Amherst Street entrance, this gateway of massive stone and heavy iron having been erected and presented to the Cemetery by Mr. Harris. This gift, in its simple elegance, is an improvement which your Trustees have long desired, but which they have felt unable to provide from their appropriations and revenues.

The following statements show our financial condition as of December 31, 1912, and the result of the year's transactions.

Trust Funds for Perpetual Care Lots.

Amount at last annual report	\$15,706.33
Amount received during 1912, (8 bonds)	843.00
	\$16,549.33

	\$4,905.47

For the Trustees,

Respectfully submitted,

JOSEPH L. CLOUGH,

Secretary.

Nashua, N. H., January, 1913.

REPORT

OF THE

PARK COMMISSIONERS.

TO HIS HONOR, THE MAYOR, AND THE CITY COUNCILS OF THE
CITY OF NASHUA:

GENTLEMEN:—The Park Commission make the following
report for the year ending Dec. 31, 1912.

Greeley Park.

Since our last report the beautiful building of stone and cement with the tile roof, which was given by the late John E. Cotton, has been completed. The building has been enjoyed by hundreds, especially by women and children. This gift, and the fact that there has been a care-taker at the Park during the day time has been an incentive to encourage many Mothers and their children to visit the grounds often. The beautiful flower beds were a gift of the late Mr. Cotton and will be replenished each year by Mrs. Cotton. The six lawn swings for the children were a gift of the same benefactor, and have been enjoyed by many.

The work of removing the undesirable brush and trees has been continued, thus giving the healthier trees more sunlight and room to spread their branches.

The placing of a care-taker at the Park during the summer months has supplied a long felt need.

Other improvements have been made during the year, which were in accord with a general plan for the Park, which the Commission endeavor to carry out each year as their Appropriation will permit.

South Common.

The special Appropriation of \$500 for South Common has been given careful consideration. During the year a drainage system has been completed. Two catch basins have been placed in the center of the Common, and the water which accumulates on the Lake Street side will be carried to a connection on Chestnut Street near the Acton tracks. This improvement will be appreciated by hundreds of people who have occasion to cross the Common daily. One hundred new cement posts have been ordered to complete the fence on Chestnut Street side. As they were not amply seasoned it was decided to wait until spring before placing them in position. The destroying of settees has continued as in former years. Fifteen of the twenty-four settees having been destroyed during the year. It is the intention of the Commission to complete the fence on the Otterson Street side if our Appropriation will permit.

Moth Work.

A new experiment in caring for the trees was tried this year, namely that of removing nests from the badly infested trees by clipping, and later when the caterpillars and Elm beetles were at work to spray the trees. This has been fairly satisfactory, but would be more so had we the means to do the work more thoroughly. Much better results could be obtained if the trees could be sprayed twice a year.

North Common.

A large back-stop and bleachers have been erected on the Manchester Street side of the Common to enable the boys to play base-ball more safely. This improvement has been appreciated by the many who use the grounds during the summer.

Other Squares.

The other squares have had their usual attention. The trees on Railroad Square appear to be more healthy since the soil has been improved by special treatment. The removal of the settees from the oval has resulted in a better lawn owing to the fact that the ground has not been tramped down as formerly.

Needs.

The Park System needs a larger appropriation for the coming year. The cost of a care-taker at the Greeley Park has been an added expense, and has to be taken from our regular appropriation. It is the wish of the Commission to make as many improvements as possible each year, along the lines suggested in the general plan.

Respectfully,

HENRY H. DAVIS,
MOSES L. TRUELL,
HERBERT E. KENDALL.

Park Commissioners.

Financial Statement.

RECEIPTS.

Balance on hand Jan 1, 1912	\$958.60
Appropriation (Regular)	1,200.00

REPORT
OF THE
POLICE COMMISSIONERS
OF THE CITY OF NASHUA, N. H.
1912.

TO HIS HONOR, THE MAYOR, AND THE HONORABLE COUNCILS
OF THE CITY OF NASHUA:

The Board of Police Commissioners of the City of Nashua make their twenty-first annual report for the year ending December 31, 1912.

During the year two Police Officers have resigned, causing vacancies, which have been filled temporarily by Special Officers, the Commission being of the opinion that better officers can be obtained by this method of thoroughly testing them, before they are appointed on the regular force.

Two Special Officers have been added to the Department during the year.

Marshall W. W. Wheeler, on account of inefficiency in performance of his duty as Marshall, was asked to resign, but did not resign until charges were preferred against him, (see records, Nashua Police Commission, June 10, 1912, page 93) his resignation taking effect December 31, 1912. Deputy George H. Campbell, being appointed Acting Marshall to temporarily fill the vacancy thus made.

To fill this office of Marshal, the Commission find it impossible to secure the services of a thoroughly competent man, with experience in police work, at the present salary of \$1200.00 per year. The Commission feel it would be an economy for the City, as well as the Police Department, if you would grant them permission to raise this salary of City Marshal, to at least \$2000.00 per year. As a matter of information on this subject, the Commission would state that the salary for the City Marshal of the City of Manchester, N. H., is \$35,00.00 per year.

The Police Department is greatly in need of at least six patrol boxes, and earnestly trusts that you will see fit to grant a sufficient sum for their installation.

The Police Station also, is in urgent need of interior repairs, several of the rooms never having been painted or varnished since the house was built.

The following is a statement of the different offences for which arrests have been made, and the number of same.

Arrests.

Arrests, male.....	1047
Arrests, female.....	63
Whole number of arrests.....	1110

Respectfully submitted,

MARTIN W. FITZPATRICK,

Clerk.

REPORT OF THE PROBATION OFFICER.

TO HIS HONOR THE MAYOR, AND CITY COUNCILS:

The operation of the Probation System in connection with the Juvenile Court in the City of Nashua for the Year 1912 was successful.

Judges of Juvenile Courts and Probation officers are devoting more attention to environment and less to hereditary in dealing with children.

As one judge expressed it "It is too late to select our ancestors." But it is not too late to alter the environment of the children so that their mental and physical condition can be improved. When the child's environment becomes what it should be the assistance of the courts and officers will not be needed.

The Juvenile delinquent is not a criminal and should not be treated as one. The tendency now is to make a medical fight for his physical improvement and to protect him by salutary laws relating to education, employment and the sale of liquors to minors. No two natures are alike and judges and probation officers cooperate to save the wayward and weak ones by methods best adapted to meet their case.

Number of probationers carried over from 1911.	13
Juveniles	11
Adults	2
Whole number placed on probation for the year 1912	33
Juveniles	30
Adults	3

Discharged from probation during the year 1912....	21
Juveniles.....	18
Adults.....	3
Committed to the Industrial School.....	3
Remaining on probation.....	22

I observe improvement in almost every case which has come under my care.

Respectfully submitted,

THOMAS FLOOD,
Probation Officer.

REPORT OF EXECUTIVE COMMITTEE.

TO THE NASHUA HOSPITAL ASSOCIATION:

GENTLEMEN: Following is a report of the work done at your Hospital for the year ending December 31, 1912.

Number of Medical cases admitted	135
--	-----

Number of Surgical cases admitted	610
---	-----

Total,	745
--------	-----

Increase over last year (1911)	43
--	----

Average number in the Hospital each day	23
---	----

Average daily increase over previous year	1
---	---

Largest number in Hospital any one day	38
--	----

Number of patients in Hospital Jan. 1, 1913	27
---	----

Number of accidents admitted	167
--	-----

Number of Operative cases admitted	443
--	-----

Number of major operations performed	216
--	-----

Number of Minor operation performed	394
---	-----

Number of female patients	345
-------------------------------------	-----

Number of male patients	400
-----------------------------------	-----

Number admitted in moribund condition	6
---	---

Number died of accident and disease	17
---	----

Total,	23
--------	----

Mortality in Medical Cases	11
Mortality in Operative Cases	7
Mortality in Accident Cases	5
Total,	23

Normal capacity of Hospital, 26 Beds.

Financial.

Number of patients who paid their bills	616, or 83%
Number of patients who paid part of their bills	91 or 12%
Number of patients who paid nothing on their bills.	38 or 5%
Average cost per patient per day	\$1.78

Hospital Employees.

Matron	1
Student nurses, including probationers	14
Orderly	1
Cook	1
Maids	3

Extra help and nurses are employed when occasion demands.

Student nurses are sent out on cases when in the judgment of the matron they can be spared from the Hospital, and their wages are added to the Treasurer's receipts.

Officers of this Association are paid no salaries for services, and members of the Hospital Staff receive compensation from private patients only.

A new hot air furnace has been placed in the Annex and the inside of the entire building has been renovated, so that the property is now in better condition than at any time since its purchase.

The capacity of the Hospital has been taxed to its limit during a large part of the year, and increasing demands call for greater accommodations in the near future.

The Dr. Wilber bequest, soon available, will approximate \$50,000.00. Friends of the institution suggest that an equal amount be raised by popular subscription or otherwise, and set aside as an endowment fund, before a new building is erected.

The subject merits consideration.

Respectfully submitted,

EXECUTIVE COMMITTEE.

A. W. Shea, Chairman.

TRAINING SCHOOL FOR NURSES.

GENTLEMEN: There are at present 13 pupils and one probationer in the Training School.

During the past year we have graduated 5; two resigned on account of severe illness and one because her health did not admit of her doing the work. Out of 25 applications received, we have admitted 5 for training. One nurse was operated on for appendicitis, and one for gall-bladder trouble, each making good recovery. Had we accomodation for them, we could profitably enlarge the number of pupils by at least one-third.

During the past six months there has been only a few days at a time whene the Hospital has not had from one to four outside nurses, caring for patients. Could we have supplied them, in most cases our own pupil nurses would have done equally well; but in an Emergency Hospital, a good supply of nurses must always be available for duty in the operating room, three being needed in all severe cases. Of course they could not be called away if on special duty with a patient and with only nine nurses to do the day work (three being needed for night work) none could be spared for special cases.

Until recently we have had no printed rules for the guidance of the Training School. This, your present committee has felt to be a serious want, especially in a few cases where we considered it advisable to drop a pupil during her second year of training, the young lady not showing increased efficiency with the increased months of training.

We wish to make a diploma from the Nashua Emergency Hospital Training School indicate a standard of efficiency second to none.

A good set of rules is one aid towards attaining this end.

These we have formulated, and with the approval of the Executive Committee, have had printed. A copy of them may be obtained from the matron by any member of the association. We have also this year instituted a pass examination for the junior nurses. The present personnel of the training school is highly satisfactory, the young ladies showing ability and eager interest in their work.

We hope in the future to maintain this high standard.

Respectfully submitted, for the committee.

E. B. ATHERTON, President.

TRASURER'S REPORT.

TO THE NASHUA HOSPITAL ASSOCIATION:

The Treasurer submits the following statement of the finance for the year ending January 20, 1913.

Received.

Balance from Report of Last Year....		\$234. 16
City Appropriation		1,500.00
Donations in cash		3,980.40
Eliz. Bennett Est., ...	\$3,710.40	
 Bethany Circle, First Baptist Church	10.00	
B. & M. R. R.	250.00	
Ladies' Charitable Society, of First Congregational Church	10.00	
Income from Patients		10,000.35
		\$15,714.91

Paid Out.

Medical and Surgical supplies	\$2,195.71
Salaries	3,650.60
Incidentals	2,052.52

Hospital Supplies.....	\$3,888.60
Fuel and Light.....	1,605.90
Laundry,.....	1,559.42
Total expenditures.....	14,952.75
Cash on hand.....	\$762.16

The Wm. S. Atwood Fund of \$374.17, with its interest accumulation, is now \$450.27.

The Dr. Geo. F. Wilber Real Estate has been handed over to the Association and at the present time is rented for \$52.00 per month. Securities have in part been delivered to the Treasurer and within a short time, when securities sent for transfer have been received, a complete transfer will be made. The securities and money turned over will amount to about \$35,000. The Real Estate added to this amount will make a considerable sum for the foundation fund for a much needed permanent and modern hospital.

Respectfully,

JAMES B. CROWLEY,

Treasurer.

ANNUAL REPORT

OF THE

BOARD OF HEALTH.

GENTLEMEN:—The Board of Health hereby submit their report for the year ending Dec. 31, 1912.

Numerous complaints in regard to nuisances were received and promptly attended to.

During the year the City was unfortunate in having a Small-pox Epidemic. It was to be expected however, as the neighboring cities and towns had cases for months before it finally invaded Nashua. The first case was reported to this Board in the evening of January 28th, and the following day the Isolation Hospital was opened and the patients were removed to it as soon as a diagnosis was made. Twenty-seven cases were reported and all recovered, and the Hospital was fumigated and closed April 22, 1912, less than three months after the first case was reported.

This Epidemic imposed a great deal of expense upon the City and an overdraft on the contagious disease appropriation was made, as a trained nurse was employed at the Hospital, and

we were obliged to vaccinate hundreds of persons in order to stamp out the disease. The City was comparatively free from Scarlet Fever and Diphtheria during the year.

We desire again to call your attention to the need of equipping the present Isolation Hospital with Pennichuck Water and telephone service, also the need of a health inspector.

Passed March 19, 1912.

RESOLUTION.

AUTHORIZING THE MAYOR TO SIGN THE CONTRACT FOR PRINTING
THE CITY REPORT.

That the Mayor be and he hereby is authorized and instructed to sign the contract for printing the City Report for 1911 with Emile E. Marquis in accordance with the report of the Committee on Printing and Stationery this day accepted.

Passed March 19, 1912.

RESOLUTION.

AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH THE
PENNICHUCK WATER WORKS FOR A TERM OF FIVE YEARS.

That the Mayor be and he hereby is authorized to execute a contract, with the Pennichuck Water Works, for a term of five years, in accordance with the special Committee's report filed with the City Councils.

Passed May 7, 1912.

RESOLUTION.

AUTHORIZING THE MAYOR AND CITY TREASURER TO ISSUE BONDS
TO THE AMOUNT OF FORTY THOUSAND DOLLARS.

Persuant to the provisions of an Act passed by the Legislature of the State of New Hampshire, entitled "Municipal Bond Act of

1895," the Mayor and City Treasurer are hereby authorized to issue and the Treasurer to sell, under the direction of the Committee on Accounts and Finances, gold bonds of the City of Nashua, in the aggregate principal sum of forty thousand dollars, which bonds shall be of the date of June 1st, 1912, and shall be payable at the office of the City Treasurer at Nashua or at the First National Bank at Boston in the Commonwealth of Massachusetts. Said bonds shall be issued for the purpose of refunding an issue for a like amount issued June 1, 1892, and maturing June 1, 1912, and the proceeds of the sale thereof are hereby appropriated for that purpose. The said bonds shall be payable to bearer and shall mature twenty years from the date thereof. The said bonds shall bear interest payable in gold at four percent. per annum, payable semi-annually on the first days of June and December of each year upon the presentation and surrender of the proper interest coupons to the Treasurer of City of Nashua at his office, or to the said First National Bank. The said bonds shall be signed by the Mayor and shall be countersigned by the City Treasurer, under the City seal, and shall bear the authenticated certificate of the said First National Bank, and the interest coupons shall bear the facsimile signature of the City Treasurer. The proceeds of the sale of said bonds shall be used to refund the issue of bonds above mentioned. The City of Nashua shall create a sinking fund sufficient to meet this issue of bonds.

Passed May 7, 1912.

RESOLUTION.

APPOINTING A COMMITTEE OF SEVEN (7) TO CONSIDER THE LIGHTING OF THE PUBLIC HIGHWAYS AND TO OBTAIN DATA AND RATES FOR THE SAME.

That a Committee of seven (7) be and the same is hereby appointed to consider the lighting of the public highways and to obtain data and rates for the same.

Said Committee to consist of the Mayor and two (2) Aldermen to be appointed by the Mayor, and the President of the Common Council and three (3) Councilmen to be appointed by the President. Said Committee shall report back its findings and recommendations as soon as convenient.

Passed May 21, 1912.

RESOLUTION.

CO-OPERATING WITH THE BOARD OF TRADE AND CENTRAL LABOR UNION IN SELECTING A CHARTER COMMISSION.

That the City co-operate with the Nashua Board of Trade and Central Labor Union in selecting a commission of thirteen (13) members to consider plans for a revision of the City Charter and upon the selection of four citizens by the Board of Trade and an equal number by the Central Labor Union, the City Council select five citizens, one of whom shall be the Mayor; that the Commission so constituted shall hold public hearings and report their final plan or plans to the Legislature for submission to the voters of Nashua on a referendum.

Passed June 4, 1912.

RESOLUTION.

OMITTING REGULAR MEETINGS DURING THE MONTH OF JULY,
AUGUST AND SEPTEMBER.

That the first regular meeting of July be omitted and the second regular meetings be omitted during the months of August and September, 1912.

Passed June, 4, 1912.

RESOLUTION.

IN RELATION TO THE TIME FOR THE PAYMENT OF POLL TAXES.

That the time for the payment of poll taxes in the City of Nashua be on or before October 1, 1912,^f and if such tax shall remain unpaid, the collector is directed to proceed in the collection of the same according to Chapter 19, Section 60, of the Public Statutes of the State of New Hampshire.

Passed August 6, 1912.

RESOLUTION.

AUTHORIZING THE MAYOR TO SIGN A CONTRACT FOR THE CITY COAL
SUPPLY.

That the Mayor be and hereby is authorized and instructed to sign contracts with the Nashua Coal & Coke Company and

W. A. Shedd Company for the coal supply for the several Departments at the following scale of prices.

For delivery before September 1, 1912.

Broken	\$7.25 per net ton
Egg	7.50 per net ton.
Stove	7.50 per net ton.
Bituminous	5.60 per net ton.

For delivery between Sept. 1, 1912 and April 1, 1913:

Broken	\$7.50 per net ton.
Egg	7.75 per net ton.
Stove	7.75 per net ton.
Bituminous	5.60 per net ton.

This action being in accordance with recommendations from the Committee on Lands and Buildings.

Passed September 3, 1912.

RESOLUTION.

RAISING MONEY FOR THE PAYMENT OF THE TAYLOR'S FALLS BRIDGE NOTES.

VOTED: The City Treasurer is hereby authorized, for the purpose of raising money for the payment of the Taylor's Falls Bridge Notes, Nos. 1-10 for \$5,000. each, aggregating \$50,000., dated October 1, 1910 and payable one year thereafter, to issue \$50,000. par value of coupon notes dated October 1, 1911, paya-

ble October 1, 1912, bearing interest at a rate not exceeding five percent. per annum, payable semi-annually on the first days of April 1912 and October 1912. Said notes shall be payable at the First National Bank of Boston, in Boston, Mass., and shall bear the authenticating certificate of that Bank, shall bear the city seal and be signed by the Mayor, countersigned by the Treasurer, and the coupons shall bear the facsimile signature of the Treasurer. They shall be considered as issued by virtue and in pursuance of the Municipal Bonds Act of 1895.

Passed August 1, 1912.

RESOLUTION.

EXEMPTING THE E. E. TAYLOR COMPANY FROM TAXATION.

Whereas the E. E. Taylor Company a corporation duly established by law, proposes to put in operation in the City of Nashua, in the building now occupied by the Estabrook-Anderson Shoe Company, situated on Palm Street, a manufacturing establishment for the manufacture of boots and shoes, and for that purpose proposes to bring to Nashua and use additional machinery, stock in trade, capital and other property now therefore.

Be it resolved that all stock in trade which may be owned or used, by the said E. E. Taylor Company in said factory, or any addition which may be made thereto, or any additional factories or buildings erected by said E. E. Taylor Company, and the capital to be used in operating the same, and the business connected therewith, be exempted from taxation for the period of ten years from the 31st. day of March 1913, provided that said E. E. Taylor Company pay to the City of Nashua, annually, the amount of the State and County tax due in respect to said property from

said City of Nashua to the State of New Hampshire and County of Hillsborough as required by an Act of the Legislature of said State, approved April 9, 1909 entitled "An Act in amendment of Section 11 of Chapter 55 of the Public Statutes relating to tax exemptions." This exemption is granted with the express provision that all work in the manufacture of shoes produced in said shop or additions thereto shall be done therein, and be it further

Resolved, That this resolution shall take effect upon its passage.

Passed October 1, 1912.

RESOLUTION.

GRANTING THE BOARD OF TRADE THE FREE USE OF THE CITY HALL.

That the Board of Trade be granted the free use of the City Hall Dec. 16, 17, 18 and 19, 1912 the same to be used by the N. H. Grange while in session in Nashua.

Passed November 19, 1912.

RESOLUTION.

IN RELATION TO THE ISSUANCE OF NOTE TO PAY BALANCE DUE ON
CONSTRUCTION OF BRIDGE ACROSS THE MERRIMACK RIVER
AT TAYLOR'S FALLS, SO-CALLED.

Whereas by virtue of a resolution passed October 11, 1910 the sum of \$50,000.00 was appropriated for the construction of the

concrete bridge at Taylor's Falls, so-called, and City Notes for same signed by the Mayor and City Treasurer were issued.

An whereas from said \$50,000.00 the sum of \$12,764.82 was diverted to meet the general expenses of the City in the year 1910, And whereas said Bridge has been completed and accepted by the joint bridge Committee, and the sum of \$9,753.49 is now due and owing on said construction; and there being no special fund to meet the same.

Therefore, be it resolved by the Mayor and Aldermen and Common Council of the City of Nashua, in City Councils assembled, as follows:

That the Mayor and City Treasurer be and they are hereby authorized to borrow money in said sum of \$9,753.49 and issue the City's note therefor for a term not exceeding one year, bearing interest at a rate not exceeding 6 per cent. per annum payable semi-annually said note to bear the City seal and be signed by the Mayor and countersigned by the City Treasurer, said money to pay said sum aforesaid on construction contract as reported by said joint bridge Committee.

Passed Dec. 12, 1912.

REPORT OF THE
BOARD OF EDUCATION

CITY OF NASHUA, N. H.

19

12

Board of Education

CITY OF NASHUA.

Clerk's Office, January 25, 1913.

At a regular meeting of the Board of Education held January 24th, 1913, the reports of the Superintendent of Schools, Principal of the High School, Directors of Music, Manual Training, Drawing and Sewing were read and accepted. It was voted to print three hundred and fifty copies of the same.

ALBERT J. McKEAN,
Clerk.

Board of Education

Organization for 1912.

JOHN H. FIELD, President. ALBERT J. McKEAN, Clerk.

MEMBERS.

John H. Field,	1 Dunstable Rd.,	22 High St.
Charles W. Howard,	40 Berkeley St.,	117 Main St.
Arthur K. Woodbury,	42 Arlington St.,	42 Arlington, St.
Arthur L. Wallace,	19 Manchester St.	206 Main St.

Terms expire December 31, 1914.

Ernest W. Gray,	3 Ritter St.,	Nashua Mfg. Co.
Walter F. Norton,	10 Webster St.,	N. L. H. & P. Co.
Frank P. Rideout,	Lowell Rd.	C. H. Jackman.
John D. Gardiner,	Lowell Rd.,	Gardiner, Beardsell Co.

Terms expire December 31, 1916.

Albert J. McKean,	36 Concord St.,	70 E. Pearl St.
James L. Bickford,	15 Mt. Pleasant St	30 Quincy St.
Frank B. Clancy,	36 Vine St.,	148 Main St.,
Samuel Dearborn,	27 Eastman St.,	46 Spring St.

Terms expire December 31, 1918.

Board meets regularly, fourth Friday of each month at 8 o'clock p. m.

STANDING COMMITTEES.

Attendance,	Clancy, Bickford, Dearborn.
Finance,	Rideout, McKean, Dearborn.
Houses,	Woodbury, Norton, Gardiner.
Industrial Training,	Gardiner, Howard, Bickford.
Music,	Bickford, Wallace, Rideout.
Printing,	Field, McKean, Woodbury.
Sanitation,	Wallace, Bickford, Clancy.
Supplies,	Gray, Howard, Rideout.
Teachers, Howard, McKean, Woodbury, Norton, Clancy.	
Text Books,	Norton, Gardiner, Gray.

SUB-COMMITTEES.

High School,	Howard, Norton, Clancy.
Spring Street,	Gardiner, Gray, Rideout.
Mt. Pleasant,	McKean, Wallace, Bickford.
Arlington Street,	Woodbury, Norton, Dearborn.
Amherst Street,	Norton, McKean, Bickford.
Harbor,	Dearborn, Rideout, Clancy.

Palm Street,	Clancy, Wallace, Bickford.
O'Donnell,	Bickford, Rideout, Gray.
Shattuck Street,	Wallace McKean, Howard.
Mulberry Street,	Gardiner, Gray, Rideout.
Lake Street,	{ Rideout, Wallace, Woodbury.
Suburbans 1, 2, 3, 4, 5,	
Suburbans 6 and 7,	Woodbury, Wallace, Rideout.
Kindergartens,	Howard, Clancy, Dearborn,
Evening Schools,	Howard, McKean, Norton.
Athletics,	Norton, Howard.

SUPERINTENDENT OF SCHOOLS.

James H. Fassett, 14 Abbott St., Municipal Bldg.
Mildred H. Croft, Clerk Taylor Rd., Municipal Bldg.
Office Hours: Every school day—8.00 to 12.00 a. m. and
1.00 to 5.00 p. m. Saturdays—9.00 a. m., to 12.00 m.

TRUANT OFFICER.

Henry B. McCaffrey, 99 Elm St., Municipal Bldg.

REPORT OF THE SUPERINTENDENT

GENTLEMEN OF THE BOARD OF EDUCATION.—

I beg to submit my twentieth annual report, the forty-sixth of its series.

Child Labor Law. One of the most distressing conditions with which I, as Superintendent, am thrown in contact, is the issuance of certificates under the State Child Labor Law. This law has been considered so long from one point of view that people are inclined to forget that there may be another side to the question.

The State practically says to the child who wishes to work, "You may do so; but you must prove that you are at least fourteen years old, that you have been to school at least thirty full weeks during the past year, and you must bring a certificate from the City Physician that you are physically capable of working. After you have complied with all these conditions, if the Superintendent of Schools is satisfied, he may grant you a certificate."

But the child says, "My father and mother are both dead. I have no one to depend upon except myself. I am physically strong, and I have attended school thirty full weeks during the year preceding, but I cannot, since I was born in a little town of England, bring a certificate of my birth."

The Superintendent replies, "This is absolutely essential under the Statutes of New Hampshire. You must continue to go to school."

The child says, "I need food and clothing and shelter. Where can I get them?"

The Superintendent replies, "You must either apply to the Overseer of the Poor, or become a County charge."

The child replies, "I have a pride in this matter. Neither my father nor my mother was a pauper. I have a good education; I **am** fifteen years old, and perfectly capable of supporting myself."

The Superintendent replies, "It is forbidden by the law. You must become a pauper, and you must go to school."

Take another case in which the child is able to comply with every condition of the law except one. The people are poor; they must have the child's help or suffer. But in this case the child, on account of a contagious disease in the family, was obliged, by the order of the Board of Health, to stay out of school six weeks, and for this reason, he was unable to furnish the thirty full weeks of school attendance during the year preceding.

The Superintendent must say to this child, "No, you have not complied with the law; you must go to school."

To which the child replies, "We have not sufficient food in the house. I have not enough clothing to keep me warm. My people are extremely poor and they need my help. I have fulfilled all of the conditions except this one of attendance at school. I was unable to do this through direct orders of the Board of Health."

But no, the laws must be obeyed, and even if the child goes hungry, he must attend school.

I have had many cases like the above come under my observation during the past year, where the child and widowed mother would burst into tears when told that the child could not work. I am satisfied that the vast majority of these people do not keep their children out of school because of any lack of parental affection. They do it because poverty forces them, and I maintain that if the State says to the child, "You cannot work to relieve your hunger and physical necessities; you must go to school," then the State, in justice, should say, "I will provide, meantime,

for your necessities." Otherwise, it is working a great injustice upon the child.

The legislators do not realize that this Child Labor law effects only a small part of the people, a part, moreover, so poor and destitute that they are unable to present to the law-makers their side of the case. Because of their very helplessness, the State should be most cautious before it enacts any iron-bound rules by which these people must either become paupers or go hungry.

I do not wish it to be inferred that I am opposed to laws for protecting children, but I am against laws which deprive the child of his means of livelihood, and which offer nothing in compensation. If the law has the power to take, it should also have the power to give.

Medical Inspection. This Board of Education has already placed itself on record as favoring medical inspection in the public schools. We should go further and see if a bill cannot be passed by the present legislature authorizing the establishment of such a department. In fact, several New Hampshire cities have taken the initiative and, without any additional legislation, have proceeded to appoint doctors and nurses who are at present acting as medical inspectors.

If this can be done in other cities, why not in Nashua? In a city like our own, with about three thousand children attending school, cases are constantly arising which demand the skilled attention of a physician. There are always present in every school-room some pupils who are suffering from physical defects, which might easily be remedied. This has been proven over and over again in other towns where careful medical supervision exists. The children, after treatment, frequently develop from sluggards, or the mentally deficient, to wide awake, bright boys and girls who are a credit not only to themselves, but to the school as well. It has been repeatedly demonstrated that the saving of time which otherwise would have been expended in teaching these defective children, more than pays the full cost of medical inspection.

Every child costs the city each year about thirty-one dollars; therefore, if one year only can be saved from a hundred school children, the city has saved approximately three thousand dollars. Although from a humanitarian point of view, this saving of money is of infinitesimal consequence as compared to the welfare of the children, yet it should have its due weight when the matter is under consideration by the city authorities.

Most assuredly the health of the children should be considered of primary importance in the upbuilding of a system of public schools. Why should the City or State furnish teachers, school-houses, textbooks, and janitors, thus expending immense sums for the mental welfare of the children, and refuse to spend a hundredth part of this sum in looking after their physical well being? In a republic which depends for its very existence upon the public schools, a sound body should be at least of equal worth to a sound mind.

Domestic Science. The schools of Nashua contain at present courses in manual training and in sewing. I would call attention to the fact that the sewing does not and cannot offer an equivalent to the girls of the city to that which manual training offers to the boys. It seems only fair that the girls should be provided with as adequate an equipment and as full a course, leading to their duties when they become the home makers of the family, as the boys have been offered toward becoming the bread winners. There can be no question but that a thorough and complete course in domestic science should be included in our equipment for the manual sciences.

That this course has been of great value wherever introduced can be easily proven to the satisfaction of any one who cares to investigate the facts. The girls find the courses in domestic science interesting and instructive. The fathers and mothers are enthusiastic over the skill which their girls have acquired in managing household affairs, for domestic science is broader than the mere science of cooking. It teaches the best methods in all phases of household management, from the purchasing of pro-

visions to the proper method of sweeping and dusting a room. You may remember that Franklin, when asked what the boys of this country should be taught, answered, "A boy should be taught that which he will find of use when a man," and I am sure that Franklin was broad enough to have included in this thought, "A girl should be taught that which she will find of use when a woman."

Retardation of Pupils. The question of retardation of pupils is one upon which there are many opinions. Some educators believe that no system of schools can be satisfactory until every child in every room is promoted at the end of every year, and they point the finger of scorn at a teacher who dares to keep back or retard a pupil. This idea, to my mind, is the essence of folly and absurdity. Any one who has taught school knows that there are distinct classes of pupils, ranging from the brightest child in the room to the dullest, and to make them all lock step and pass on through the school system together, is little short of crime; moreover, the teacher who promotes all her pupils invariably and without exception, is doing that which she knows is wrong.

The danger of this step is particularly noticeable in the first three years of school. It is during this time the child should get a foundation for the work which is to follow and if this foundation is not thoroughly laid, it serves as a handicap all through the remaining years of his school life. Oftentimes a bright child is just a class ahead of where he belongs. The subjects taught and developed by the teacher are just a little beyond his intelligence. He is not mature enough to comprehend the work. As a result, he is a drag not only to the teacher and the rest of the school, but to himself as well. Instead of passing through the school handicapped, troubled, and well down toward the foot of his class, this same child, were he in one class below, with a year more of maturity, would no doubt, under these new conditions, enter the succeeding grade well equipped, perhaps the leader of a class only a year below the one in which he had difficulty in keeping his head above water.

Parents take such a false pride in the fact that their children are "young for the grade," as the saying is, that they unconsciously do them a great injury. Of course there are precocious children, whose keen minds need advance work, in order to keep them busy and out of mischief, but they are rare exceptions. This ambition to crowd the child is one of the great evils which the teacher has to encounter.

Evening Schools. The evening schools were organized this year on an entirely new basis from that which had held heretofore. Previous to this time, the evening schools were made up practically of non-English speaking pupils who had come to America from the Mediterranean countries, and who wished to learn to read and write English. Many members of the City Government were of the opinion that this was a one-sided school, and that to be fair, an evening school should provide instruction for all classes. This criticism, however, will no longer hold.

Up to the present time, two hundred and ninety-two pupils have been enrolled. Of these the vast majority come from our non-English speaking population, but there is also maintained a class of pupils who are pursuing common grammar school subjects. The High School department offers two courses; one in bookkeeping, the other in stenography and typewriting, and the pupils who have taken advantage of this course are getting valuable training along these practical lines.

No money is spent by this Board of Education which gives greater value received than does that expended on evenings schools. The pupils are there for a purpose, and they show by their constant attendance that they are getting what they want. I sincerely hope that the evening schools, as at the present constituted, will form a permanent part of our public school system.

State Course of Study. The course of study in the modern High School is a complicated working machine. The two factors which cause the most trouble are the college requirements on the one hand, and the State Course of Study as outlined by the State Superintendent of Public Instruction, on the other. The college

requirements are, of course, arbitrary and unyielding, from which we have no recourse, although there are signs that point to a relief in the future. But added to these troubles are the arbitrary requirements insisted upon by the State Superintendent. These are forced upon us, not because of any State law which compels us to adopt them, but from the fact that we accept, at no gain to ourselves and at a slight pecuniary loss, a number of tuition pupils from our surrounding towns. This fact, since the state pays part of the tuition, gives the State Superintendent a hold upon our school curriculum, of which power he is very keen to avail himself, so that through this charity, so to speak, to our neighbors, we are forced to adopt a number of courses in our High School against the better judgment of both the Superintendent of Schools and of the Principal of the High School. It seems to me that a protest against the exercise of this arbitrary power should be made by school officials throughout the state to the proper authorities.

The Teacher. I find that the opinion is still held by some people that the teachers' life is a happy one, full of amusement and with little work. When I look back in my experience and recall the rosy cheeked, rugged young women who have come into our schools as teachers, and realize how in a few years, the strain and work and worry of school teaching has dragged down and sapped their vitality, I realize more and more what sacrifice they are making.

No person has ever taught school who does not know the tremendous nervous strain under which the teacher acts. Besides the discipline of the school, which is all in the day's work, comes the definite repetition of the never ending daily drill. There is so much ground that must be covered during the week, during the month, during the year. These daily lessons must be carefully prepared at home before a step is taken toward the school-house. Then the hours of thankless drill given to the correction of papers: arithmetic papers, language papers, writing papers, geography papers, history papers, all looked over with the skill

of the surgeon and the sympathy of the mother. Moreover the teacher, through the strength of her personality, make an indelible impression upon the actual life of the children aside from the mere knowledge which she imparts to them from books.

In conclusion, I wish to express my appreciation to the Board of Education for the many courtesies extended to me during the past year.

Respectfully submitted,
J. H. FASSETT,
Superintendent.

Report of Principal of the High School

MR. JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

SIR:

In compliance with the rule of the School Board adopted two years ago, I submit my third report.

The school has been fortunate in keeping the same teachers that it had last year. The class work has consequently suffered no serious breaks in its continuity and much more has been accomplished than could have been done with unproven teachers.

The following table shows the enrollment of pupils this year in each subject.

English Literature,	410
English Composition, class instruction,	244
English Composition, individual instruction,	166
History,	244
Latin,	137
French,	261
German,	72
Algebra,	154
Geometry,	115
Trigonometry and Solid Geometry,	12
Physics,	44
Chemistry,	51
Astronomy and Geology,	9
Zoology and Botany,	45
Stenography,	28
Bookkeeping,	50

Typewriting,	57
Penmanship,	42
Political Economy and Commercial Law,	25
Commercial Arithmetic,	50
History of Music,	9
Carpentry,	33
Sewing,	28
Designing,	30
Wood-turning,	18
Drawing,	32

Wellesley College has recently agreed to accept our course in English History and our course in American History, each given only four times a week, when the regular demand in these courses is for five exercises a week. This concession on the part of a college with standards of admission that are rigidly adhered to, speaks well for our courses in history. The New England College Entrance Certificate Board has renewed its approval of the Nashua High School for the three years beginning January 1, 1913. Approval from this board is never granted for more than three years. This school has received no criticism during the year from any college concerning the preparation of any students to whom it had granted its certificate. In giving certificates the school authorities have tried to be just to the colleges and also to the pupils. The requirement of a standing not below 80 percent for a college certificate is in the long run an advantage to the colleges, to the school, and to the pupils.

The number of our students entering higher institutions this year with only the preparation obtained in this city is thirty-one. They are distributed as follows:—

- One in the Posse Gymnasium School.
- Two in Sargent's School of Physical Training.
- One in the Worcester School of Domestic Science.
- One in the Lowell Textile School.
- Two in Miss Wheelock's Kindergarten School.
- One in the Springfield Training School.

One in the Keene Normal School.
One in Worcester Polytechnic Institute.
One in Dartmouth.
One in Harvard.
One in Smith.
Two in Holy Cross.
Two in Colby.
Four in Boston University, and
Ten in New Hampshire College.

At the graduation reception it has been difficult with most classes to get them to limit the number who stand in line to receive. When the classes were smaller there was a natural limit of moderate size to the number who stood in line but the number of graduates is much larger than it was a few years ago, there were seventy-five in the last class and they all stood in line for more than an hour. I recommend that the number be fixed by this Board at ten or less. I know of no other school which permits so large a receiving line as ours. Many guests prefer not to be introduced to so large a number, and ushers object to a list of seventy-five names which they must remember.

The out-of-town speaker at the last graduation was Professor Charles F. Richardson who pleased the large company gathered on that occasion.

The senior class for several years has given a dramatical entertainment usually in the evening of the last day of the fall term. This year Sheridan's "The Rivals," the most pretentious play ever attempted by the school, was presented with great credit to all who were connected with the performance. The proceeds of this entertainment are used to defray the class expenses at graduation.

The evening school with an enrollment of 267 has been quartered in the High School building, making use of all the rooms in the annex and of rooms five, six, eleven, twelve, and twenty-four. The artificial lights necessary for the night work have also been very useful in the dark mornings.

The largest item of repairs to the building has been the installation of steel ceilings in the main corridors of the first and second floors, in the reception room, and in two of the recitation rooms. More such ceilings may well be put in when the money to pay for them can be spared from the school appropriation. We have been exceedingly fortunate that of the many times when platering has fallen from the ceilings nearly all have been when the building was empty. If we see portions of the plaster which are sagging we take such portions down, but sometimes it falls without any warning and in one instance several boys were treated to a sudden hail of plaster while they were eating their lunch in the basement.

This last September the new rule went into effect which raises the tuition from \$40 to \$57 a year. Notwithstanding this the number of non-resident pupils admitted this year was seventy-five, the largest number that we have ever had. Very little complaint has reached my ears concerning the increased cost of a High School education. Perhaps the people are so accustomed to rising prices that one more example of it makes but a slight impression. A very small number of pupils have left this school because of the portion of tuition, seventeen dollars, which is collectable from parents. Some of the towns which have pupils in this school are to pay the extra tuition, but others are not likely to do so. The ambition of the non-resident pupils compares favorably with that of those whose parents reside in Nashua.

We have now had industrial work in the school for the last two years for both boys and girls. If the pupils who are taking these branches are to continue in similar work, then provision must soon be made for extending the work. There are now seventeen boys who are doing second-year work and we may expect that a large part of these will wish to continue in similar lines in their junior year. A larger opportunity to accomplish something upon metals seems to be the next thing needed for these boys. Though I do not begrudge the space already given up to the benches and to the turning lathes, yet I do not see where we can find

the room in our present quarters for individual forges. One upright drill, one metal planer, one band saw, one gas furnace, and two or three blow pipes could be installed without crowding us, and with this additional equipment the work of the third year in mechanic arts could be done, provided that sufficient teaching force is also furnished.

With regard to more advanced and more varied domestic work for the girls I am not prepared at present to recommend the introduction of new subjects into the two higher classes. Girls who have been taking the industrial course can change to the other courses. I see no place available in the High School building for the introduction of cooking and until we have more rooms it seems to me that the girls will have to get along without school instruction in that art. This does not mean that I am not in favor of the best training obtainable in those subjects which are fundamental for home makers, for I heartily believe that there is no more important work for schools to do. I should like to say that in the teaching of physics, chemistry, and biology there is an opportunity to present principles of every day application in the modern, well-equipped home. The elementary principles concerning food, water, heat, combustion, lighting, ventilation, mechanics, electricity, bacteriology, germ diseases and many other practical matters are well brought out in the sciences now taught in the High School. In the department of Household Economics in Simmons College a large proportion of a student's time is devoted to these fundamental sciences.

A boys' debating society was organized a little more than a year ago and a girls' society within a few months. A team from the boys' organization was defeated in a debate at Laconia with a team from the Laconia High School. Our boys did very creditable work even if they did not win first place in the minds of the judges. Another contest with the same school is soon to be held.

An examination of the eyes of most of the pupils has been made by the principal and the clerk with the result that after securing expert advice outside of school several pupils have put on glasses.

In athletics in recent years one of the tendencies noticed in many schools is to bring the management more closely under the control of the teachers. In this school we supervise the sports much more than we did a few years ago. I think that we might do more, I recommend that the Board authorize the selection of all athletic managers from a list of eligibles prepared by the men teachers of the school. At present the classes elect those who do the work on the school paper, the Tattler, from a list of eligibles prepared by the English teachers. In a similar way the senior class elects from the upper third in scholarship those who have the honors at graduation. The method works well in both of these cases. I believe it would be a good thing to choose the athletic managers in the same way rather than to continue to elect them after nominations are made from the floor in a meeting of the Athletic Association. Perhaps it is not necessary to state that in this school, as well as in all others, athletics cut a much smaller figure in comparison with the scholastic work than would be thought from the newspaper references to school activities. Athletics are much in the public eye, algebra and history are less spectacular.

The New Hampshire Department of Public Instruction has issued during the year a revised Standard Program of Studies which sets forth various suggested courses for High Schools and also minimum requirements in each subject. These requirements in some particulars seem to me excessive. For example, in French all pupils are required to read in three years not less than 1200 pages. This requirement is 50 percent. greater than that of Smith and Wellesley in their three-year admission requirements I doubt if so large an amount of French reading can be done well in the High School without slighting some other valuable parts of the training which ought to be secured from the study of this modern language.

I heartily thank the members of the Board of Education and all others who have helped the Nashua High School.

Respectfully submitted,

CHARLES H. NOYES,

Principal.

REPORT OF DIRECTOR OF MUSIC.

MR. JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

DEAR SIR:

Herewith I submit to you my sixteenth annual report, in which is reviewed what the department of music has accomplished during the past year. Since the music in the High School is the culmination of the course it may be well to speak of what was done in this school.

At the eleventh annual Nashua Music Festival, held at City hall, May 16 and 17, the High School chorus, two hundred and twenty-five voices, gave the opening concert, when two standard choral works, though modern, were produced. For the concert the school was assisted by Miss Mildred Potter of New York, mezzo-soprano; Mr. Lambert Murphy, of the Metropolitan Opera Company of New York, tenor, and Mr. Stephen Townsend of Boston, baritone, and the Boston Festival orchestra. Miss Helen Ward was the pianist. The choral works were "Olaf Trygvasson," composed by Edward Grieg, and Hiawatha's Wedding Feast," by Coleridge-Taylor. Both these works are found in the repertoire of the leading oratorio and choral societies of Europe and America.

"That young men and young women of High school age should be able to cope with such exacting and difficult music speaks well for the work in the grades below the High school," wrote a special representative of the New York Musical Courier, who was sent to the festival by that paper. There was a very large audience in attendance at the concert.

The High School is now studying the short oratorio, "The seven Last Words of Christ," by Theo. Dubois, and "Gallia, " by Gounod. These will be produced at the opening concert of the festival, which will be held at City hall, May 15 and 16, 1913, with the assistance of Mrs. Grace Bonner Williams of Boston, soprano; Miss Jeska Swartz, of the Boston Opera Company, contralto; Mr Paul Althouse, of the Metropolitan Opera Company of New York, tenor, and Mr. Reinald Werrenrath of New York, baritone, with the Boston Festival orchestra.

The class in harmony and theory did more work, and better work, than the year of its introduction in the High school. Some of the class of the past year have carried on their studies since graduation, with the object of making music their life work.

The ninth grades are doing excellent work with the Laurel Song Book, a work used in most of the High schools of this country, and to the preparation received in this collection of fine music can be attributed much of the success of the High school singing.

The books used in all the grades are unsurpassed for excellence of texts and music, a fact that does much to make our course loved by the pupils.

There is a healthful enthusiasm in all the grades below the ninth including the kindergartens, for which the regular teachers are to be given credit to a large degree.

To you Mr. Superintendent I am grateful for your kind co-operation and help, and to the committee on music and the school board for providing the best materials I am duly grateful.

Yours truly,

E. G. HOOD,
Director of Music.

Report of Director of Manual Training.

MR. JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS.

DEAR SIR: In compliance with the provisions of the rules and regulations of the School Board, I submit my third annual report of the Department of Manual Training in the Nashua Public Schools.

During the past year the department has advanced with marked success. The following is a brief account of a few things which have been accomplished.

In February the necessary lights were installed in the mechanical drawing room at the High School. At the same time 48 reference books on Manual Training and Mechanical Drawing were purchased and placed in the High School Library.

On March 13th and 14th, an extensive exhibit was held in the City Hall, which was largely attended and assisted towards promoting greater interest in the industrial work which is being carried on in this city.

In April the boys taking Manual Training at the Spring Street School, partitioned off a section of the basement and built lockers to accommodate over 250 pupils, thereby saving the city considerable expense.

During the session of the Merrimack Valley Teachers' Association which took place May 3rd, an exhibit of Manual Training work was arranged in the Spring Street School, so that teachers from other cities could see what Nashua was doing along the above lines. An exhibit of Mechanical Drawings was also held at this time in one of the store windows on Main Street.

At the regular meeting of the School Board in May, the Board ratified the second year industrial course which is now in operation.

In September, 12 under-drive speed lathes were purchased for wood-turning and pattern making. A new room 51 feet long and 28 feet wide was partitioned off in the basement of the High School to receive these lathes.

A large number of blue prints were made for Grammar and High school work, thereby systematising the course.

In October the department met the demand of the Evening School Committee by opening its mechanical drawing room which was at once filled to its capacity.

An exhibit of first year High School work in mechanical drawing was arranged on large mounts and displayed at the general exhibit of drawing in the exhibition hall during the session of the New Hampshire State Teachers' Association at Manchester.

The adding of a second year Industrial Course to the curriculum of the High School marks an extension of the work for the past year. The course is as follows:

FIRST YEAR.

Required	Periods per week.	Points.
English.....	5	5
Algebra.....	5	5
Cabinet Making.....	6	3
Mechanical Drawing.....	4	2
Pupil must elect one of the following:		
French.....	5	5
Ancient History.....	5	5

SECOND YEAR.

Required	Periods per week.	Points.
English.....	5	5
Geometry.....	5	5
Wood-turning & Pattern-making.....	6	3
Mechanical Drawing.....	4	2

Elect one of the following:

Chemistry.....	5	5
French	5	5

In this course the 80 minute period is required as the equivalent of the 40 minute recitation period.

The following is a table showing the number of pupils taking Industrial Work in the High School:

1st Year Industrial Class in Shop Work	11
1st Year Industrial Class in Mechanical Drawing	11
2nd Year Industrial Class in Shop Work	17
2nd Year Industrial Class in Mechanical Drawing	17
Extra boys taking Shop Work	9
Extra boys taking Mechanical Drawing	13
Total	78

This shows an increase of 26 over last year.

HIGH SCHOOL WORK.

The Freshman class this year is smaller than was expected, but to make a study of the probable growth of a school one must look over a series of years as a comparison of any two years is often misleading.

The work of the first year Industrial Class is very much the same as that which was followed out last year with the exception of a few changes which are being made towards the betterment of the work.

THE SECOND YEAR INDUSTRIAL WORK.

The second year work is meeting with great success. The class started only last year with 22 members and but one left during the year. To-day there are 17 pupils in the class.

It was decided last June to partition off a section of the large basement for the equipment of a Wood-turning and Pattern-making room.

The 12 new lathes were a little late in arriving, but this did not bother us very much as we had a great amount of work to do in getting the new shop fitted up. The boys did all the work of building benches, tool racks, tables and trays, etc., etc.

By the time the lathes arrived, about the second week in October, the second year pupils had completed three models in pattern-making.

The 12 wood-working lathes are of the American type, and they have met with the approval of every one that has examined them. In fact, I doubt if there is a much better lathe on the market for High School use. It is an under drive lathe and its advantages are as follows:

First: From the standpoint of economy over the individual drive.

Second: The elimination of counter shafting, thus doing away with a great amount of vibration and noise.

Third: Permits better light, free ventilation and greater shop cleanliness.

Fourth: The pupils are well protected by several safety devices on the lathes and even the shafting is encased in tubing moreover, each pupil has full control over his particular lathe through a friction clutch.

As there were more boys than lathes, the director was obliged to outline a course which would meet the existing conditions. So far, the course has worked out well and the boys are showing a great amount of interest in the subject.

The boys understand the workings of the lathe as we have taken two of them apart and studied the details thoroughly. Moreover, the individual motor drive lathe which was purchased two years ago, made the conditions excellent for demonstration purposes.

OUTLINE OF WOOD-TURNING COURSE.

1. Study of the lathe; (a) Parts, (b) Bearings, (c) Speeds.
2. Methods of selection of stock; centering of work.
3. Exercises in soft wood turning to familiarize the student with the tools and operations.

(a) The first eight pieces are exercises illustrating different cuts and the fundamental use of the turner's gouge, chisel and parting tool. This spindle turning includes cylinder, step cylinder, V grooving exercise, cone exercise, bead exercise and reverse curve exercise.

(b) After the preliminary exercises are made, a number of handles are introduced, being made with and without ferrules. These are made for chisels, files, turning tools, etc., correct methods being discussed.

4. Exercises in face plate work, the making and use of Chucks and Templates, for inside and outside turning.

5. The finishing and polishing of work.

These courses are not fixed, being subject to frequent changes to fulfill better the aims of the work and to meet changing conditions.

The students are required to keep tools in proper condition for work at all times, and correct sharpening of tools and care of the lathe are matters which are discussed. In every room it is an invariable rule that every article must be kept in its proper place.

OUTLINE OF PATTERN MAKING COURSE.

1. Lectures on the place of Pattern Making in Manufacturing and the relation between pattern-shop, foundry and machine shop.
2. Materials for Pattern Construction. Selection of stock and grain of lumber.
3. Talks on draft and shrinkage.

4. The making of Elementary Patterns.
5. Glue and shellac. The use and care of shellac and glue. The finishing of patterns.
6. Core box construction.
7. Lathe Work. Segments. Methods of driving and chucking. Use of pinch dogs, lathe tools and scrapers.
8. The making of more difficult patterns.

With the course in pattern making a parallel course in moulding should be given. At present we are partly equipped for this work, having a large moulding table which the boys have just finished and the necessary tools including two barrels of moulders' sand which was given to the department by the Flather Foundry Co. All that is necessary to complete the equipment is a gas furnace which would melt about fifty pounds of soft metal, and a small gas oven in which to bake cores.

It will be seen that the above course in wood-turning, pattern making and foundry would take considerable time to complete even with our six periods per week, but I see no way in which it could be made shorter without falling short of accomplishing the best results. My recommendation is: that the second year students complete the course in wood-turning and carry out the pattern making course as far as possible, which would be as far as finishing elementary patterns including lathe work and its sub-topics. The above would include a few of the elements of moulding. For the third year give some advance pattern making with moulding and also iron work. The iron work could be carried on with the additional equipment of two blow pipes, an upright drill, one machine lathe and a small shaper. There is room to install one or two of the above machines in the wood-working shop.

In connection with the pattern making, we have no band-saw to assist us in our work and need one badly.

When the order for the lathes was placed, it called for an extra foot of shafting on one line of lathes and 20 inches extra on the other. The object of ordering the shafting this way was that

any additional machines might be driven from the one motor. There is ample room to allow for working around the band-saw.

The mechanical drawing given the second year industrial boys is similar to that taught in most Technical High Schools. The pupils thus far have finished a series of plates on isometric drawing and are now studying the screw thread, the Helix and its application to round and square springs, bolts and nuts, bolt fastenings and keys. Time will be given to sketching machine parts such as collars, face plates, clamps, bearings, couplings etc. This class is turning out some exceptionally good work this year and the attitude shown towards the work is encouraging. It was this same class that made most of the tracings for the blue prints of the different courses which are being used with marked success.

The director has given more time this year to having the pupils write compositions on shop and drawing work. Themes have also been written on visits which the boys have made to industrial plants and reviews of pamphlets which the department has purchased from the International Text Book Co. The boys have also bought a few issues of the Machinery References Series. Not less than one period a week is devoted to class discussions of various questions regarding matters of industry and shop mathematics pertaining directly to the pupils' problems. Lessons are also issued on separate sheets, run off on a duplicator. Each boy keeps his own note book. All of the above work occupies considerable time of the director. As in every business, "System" is the watchword, so we have systemized our course, that that the work of each succeeding grade has for its own advancement a strong foundation of previous work. Thus the work in the 6th grade, which is mostly knife work, leads to the bench work, and the bench work in each grade advances as their academic work would advance, so that when the boy is ready to enter the High School, he is well prepared to take up the more advanced lines of Manual Work.

GRAMMAR SCHOOL WORK.

The work in the Grammar Schools is very much the same as stated in my last year's report, but is being carried out under much better conditions.

The program as arranged keeps Mr. Fuller busy every day during the day and it is necessary for the director to conduct two ninth grade classes in the High School shop.

As it is a distinct advance in applying shop principles to have the pupils work from blue prints, this department is equipped with several hundred, which are filed in a cabinet made especially for the purpose, so hereafter the boys work from their own blue-print. This is in keeping with the most approved methods of instruction. The blue-prints are used in the sixth grade with comparatively as much success as in the ninth grade.

The shelves which were at one time in the Spring street shop used as lockers have been removed and the boys have given all the wood work including cabinets and closets a coat of light gray paint, which adds greatly to the general appearance of the shop.

Similar report cards are being used as were used last year. The pupils being marked in "Shop Attitude," "Effort," and "Skill," giving each boy a fair chance to show his worth. The fact that the pupils know that they are being marked in the above subjects, helps greatly towards having the proper spirit in the room. This spirit which I sometimes call the proper shop attitude is no small matter when considering the mental development of the boy.

A portion of the basement adjoining the work shop has been utilized for a locker, stock and coat room. The size of this room is approximately 18 ft. x 25 ft., and contains 189 lockers, the work of the 7th, 8th and 9th grade boys. The boys in doing the above work, have not only gained many practical lessons, but have saved the city about 50 percent. on the figures submitted in the bids for the contract.

In addition to the regular work, the pupils are given the opportunity of working after the close of the session. This opportunity is taken advantage of by the boys who wish to do extra work and also for a few to make up back work.

The exhibition of Grammar school work which was held in City Hall last March, was convincing evidence that Manual Training is accomplishing its results with the Grade pupils.

EVENING SCHOOL WORK.

The usefulness of the mechanical drawing equipment has been increased and a new interest in industrial education has been awakened in the community by the opening of an evening class in mechanical drawing.

The demand came from the young mechanics in the shops. There were at first more applicants than could possibly be accommodated in the quarters which are far from being large enough. On October 24th, a class of sixteen was started, meeting four nights a week. The others, five in number, were placed on the waiting list.

All who attend the Evening Mechanical Drawing class are engaged in business and their purpose in attending is to fit themselves for better and more congenial employment. The admirable spirit shown by the students and the character of the work accomplished indicate that this subject is likely to prove a most valuable addition to the public schools of Nashua.

The course is designed to meet as fully as possible the needs of persons engaged in mechanical pursuits, who wish to extend their knowledge and increase their skill in this particular line. The attendance has been even better than was expected, 79 1-2 per cent. A careful study has been made of individual needs and the results of experience will enable the teacher to improve the course so that it will be even more attractive and profitable for the men who desire to increase their efficiency another year.

GENERAL.

To give an idea of what the boys have made for the city, I will mention the following:

The Grammar School students have made: Tool racks and bench hooks for use in the shop. They have completed in excellent style a series of 189 lockers in which to place their work. They have also built a good strong lumber rack and enclosed same by putting up a 35 foot partition. They also did all the interior painting.

The High Schools students have made: 3 large picture frames to be used in the class room; 20 test tube stands for use in Chemical Laboratory; 2 blue print files to accommodate 600 mounted blue prints; 2 envelope files for use in City Hall; Repaired a few of the High School desks; Made a bulletin board with frame glass doors; did all the necessary work towards completing the Turning room, which kept them busy several days.

Another year if it should be found advisable, the pupil should lay the floor in the Spring Street shop.

For the benefit of the school system, the director is conducting a 'Teachers' class in mechanical drawing, meeting every Wednesday from 4.00 to 5.00 o'clock for ten weeks. The object of this class is to acquaint the teachers of the 6th, 7th, 8th, and 9th grades with a few of the elements and fundamental principles of this practical subject. Standard lettering, the conventional forms of lines used, arrangements of views, together with the use of instruments, etc., will be thoroughly explained.

I should like to see an appropriation made that will enable us to make plans for a new building to be erected as previously suggested in your Annual Report of 1910. I have made mention of the above matter in my last two reports. We need the additional accommodations more now than ever before. A new building would relieve us of our crowded conditions in the Mechanical Drawing room, and could be utilized for bench work, moulding, forging, machine shop practice. A class room could be devoted

to demonstration and lecture work. A building of the above description would also be a splendid institution in which to have an evening school. Both Manchester and Concord have special buildings in which the pupils receive industrial training. Our entire equipment of the Manual Training Department has been purchased with the object in view of some day installing it in a building especially adapted to its needs.

RECOMMENDATIONS.

For the Further Extension of Industrial Work in the Nashua Public Schools.

1st. That the Industrial course in the High School be extended into third year.

2nd. That a bandsaw and a small gas furnace be installed in the pattern making room.

3rd. That the additional equipment of two blow pipes, an upright drill, one machine lathe and a small shaper be purchased.

4th. That a fire extinguisher be placed in each of the three shops.

5th. That more reference books be added to the present collection and be placed in the High School Library.

6th. That a new floor be laid in the Spring Street shop.

7th. That a strenuous effort be made towards securing new accommodations for the department.

CONCLUSION.

The Director is watching closely the experiments and discoveries of other like departments so that we may profit at their expense and introduce only the best methods which will meet our present needs. In glancing over the general work of the year, I can see a steady improvement. This is due to the special efforts of the teachers and the existence of the proper spirit between the instructors and the boys.

It is to be hoped that the City Government will no longer delay in appropriating a suitable amount towards the erecting of a building as previously recommended.

If the most strenuous opponent of Industrial Education could see how the department is conducted, what it is doing and just how the money is being spent, he would become a strong advocate for the further advancement of the work.

In closing, I wish to express my appreciation to you for your helpful suggestions, and to the members of the Board of education who have made possible the continued progress of the department by their support, also to the principals and teachers of the various schools for their hearty co-operation.

Respectfully submitted,

ERNEST W. BECK,

Director.

REPORT OF DIRECTOR OF DRAWING.

MR. JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

DEAR SIR: I will first report on the two High School classes, freshman and sophomore, which are taking drawing in connection with sewing. Twelve pupils elected the course which was offered for the first time in 1911-12. Although they worked enthusiastically and well it was felt by those in charge of the work that a larger and better class might be formed for 1912-13 in the ninth grades had an opportunity to see the work of this class, and know definitely what would be expected of them. With this end in view a small exhibition was hung in Room 15 in the High School building, in May. The pupils in the ninth grades were invited to visit it and many came. The result was that twenty girls elected the course this year. Every effort is being made to make the designing in these two classes helpful to girls who expect to make their own clothes. It is not thought possible or desirable to make the work professional in any way.

With some slight changes, which are really advancement of the work as the teachers and pupils become more skilful the course in drawing in the Grammar and Primary Schools remains same, therefore in this report I am going to take up the question of the expense of the Drawing department. I do this for the reason that for the last few years I have used the whole and sometimes a little more than my appropriation. There are two definite reasons for this increase of expense. One is that the art materials for the higher grammar grades cost more than for the lower grades, and we now have fifteen, counting the seventh, eighth, and ninth grades whereas ten or twelve years ago we had only eight. The second reason is that the materials provided for my depart-

ment are used for a great many purposes. It is generally conceded that drawing in the public schools should be taught so that it enters into every lesson. Where, formerly maps were drawn with pencil or ink they are now drawn and tinted with water color paints. Fancy lettering and illustrations decorate compositions, and cotton warp and raffia are used in binding written work into attractive booklets. Carbon tracing and tinted papers are constantly in demand. Supplies used in this way would if they were only used in the formal drawing lessons, and yet I believe that this use of supplies indicates a successful course of study.

The total cost of the Drawing Department including \$350.00 for supplies and \$900.00 for my salary is \$1250.00. There are 5027 pupils registered in our schools. Of these 250 in the Kindergartens and 381 in the High School do not come under my instruction. The remaining 2396 pupils follow my course of study and use my supplies. Therefore we might say that approximately 2396 pupils are being taught drawing at an expense of \$1250.00. or a little over \$0.52 a year for each pupil.

The Russell Sage Foundation in a comparison of the school systems of forty-eight states places New Hampshire twenty-first in the amount of money spent for the education of each child, and and thirteenth in the general rank of efficiency of the school system. This statement and my figures seem to show that too much money is not being spent for the Drawing Department.

Respectfully submitted,

ELIZABETH L. BUCKINGHAM.

REPORT OF DIRECTOR OF SEWING.

MR. JAMES H. FASSETT, SUPERINTENDENT OF SCHOOLS:

DEAR SIR: In compliance with your request, I submit the third annual report of the Sewing Department.

GRADE DEPARTMENT.

In March 1912 an exhibit of the work in sewing of both Grade and High school departments was held, in connection with the exhibits of the departments of Wood-working and Mechanical Drawing, in the Assembly room at the City Hall.

The exhibit was open to the public during the afternoon and evening of two consecutive days.

That the visitors might gain an idea of the work as it is conducted in the class-rooms, several girls, representing the higher grades and the Freshman High school class, were engaged in sewing that had been started in class.

On tables and fastened to mounts on the walls were arranged articles which had been completed in the departments since the opening of school in September.

This year it became necessary for the seventh grade teachers to conduct their sewing classes, in addition to the sixth grade teachers who so efficiently did this work last year. The supervisor visits these classes when possible, and, due to apportionment of her time, is able to conduct three of the classes, usually as often as every other week.

The supervisor is much pleased with the interest and effort which these teachers display in regard to this work.

Upon re-considering the fact that the older girls are obliged to sit in unnatural positions in the class-room seats during the

sewing hour, it was suggested that these girls in the Spring Street building meet in the Assembly hall. In January, after the Christmas recess, the necessary arrangements were made for the sewing classes, which come under the immediate direction of the supervisor.

Similar arrangement are being tried at both the Mt. Pleasant and Arlington Street buildings. The adjustments, thus far, are proving to be of great advantage over the former arrangements.

RECOMMENDATIONS FOR THE GRADE DEPARTMENT.

The Supervisor recommends:

- (1) That five more sewing machines be installed for the department.
- (2) That three supply cabinets be purchased for the department.

HIGH SCHOOL DEPARTMENT.

The industrial course was introduced into the Nashua High School in September, 1911. This course was open for election to the entering class. In September 1912 the work was extended into the Sophomore year, whereby every girl who had elected the course found it to her advantage to continue the work.

INDUSTRIAL COURSE FOR GIRLS.

Freshman Year.		Sophomore Year.	
Required.		Required.	
English	5	English	5

In May 1912 an exhibit of the work in sewing and applied design was held in Room 15 for the girls of the ninth grades and their parents, that they might better acquaint themselves with the work offered in this Industrial course.

As a result of the efforts of the supervisor the number of girls electing the Industrial course was practically double that of last year.

In consideration of existing conditions, the supervisor thinks that, with the more adequate preparation which she will now be able to give in the grades, the two years of sewing in the Industrial course will prove sufficient to meet the needs of those students who elect the course.

RECOMMENDATIONS FOR THE HIGH SCHOOL DEPARTMENT

The supervisor recommends that there be installed for the department:

- (1) Two more sewing machines.
- (2) One supply cabinet
- (3) One long mirror.

In conclusion the supervisor sincerely thanks the Superintendent of Schools, the Board of Education, and all who have cooperated with her in the work of the Sewing Department.

Respectfully submitted,

GLADYS BLODGETTE.

TEACHERS, DAY SCHOOLS, JANUARY, 1913.
